

AURIS | 7 Way Access Digital Pull Handle

Auris Collection

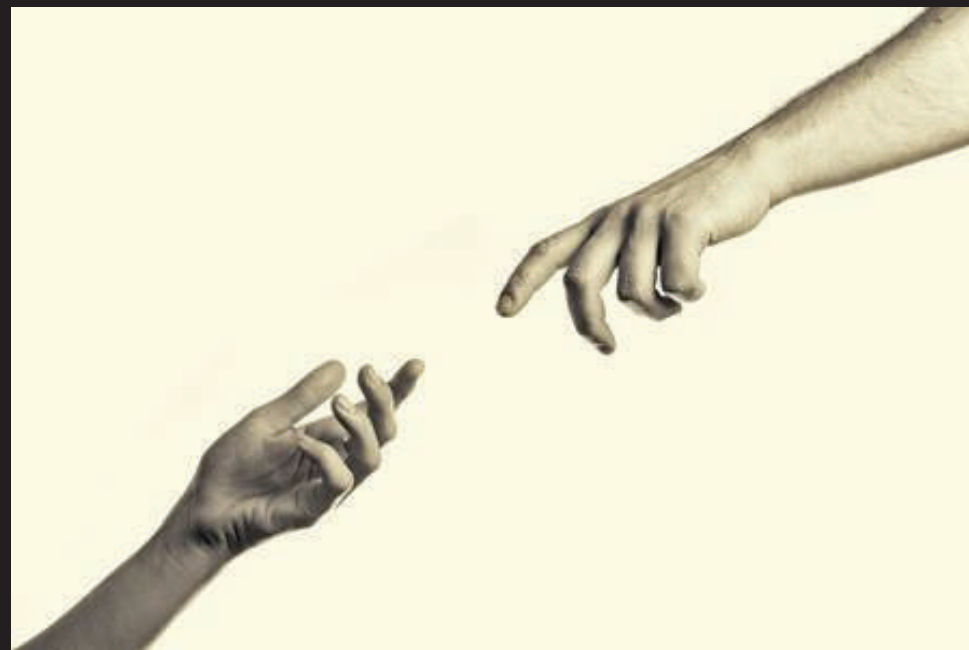

The digital pull handle designed for modern living. With 7 smart access modes, it combines cutting-edge security, seamless convenience, and a statement-making design for the entrances that matter most

the inspiration

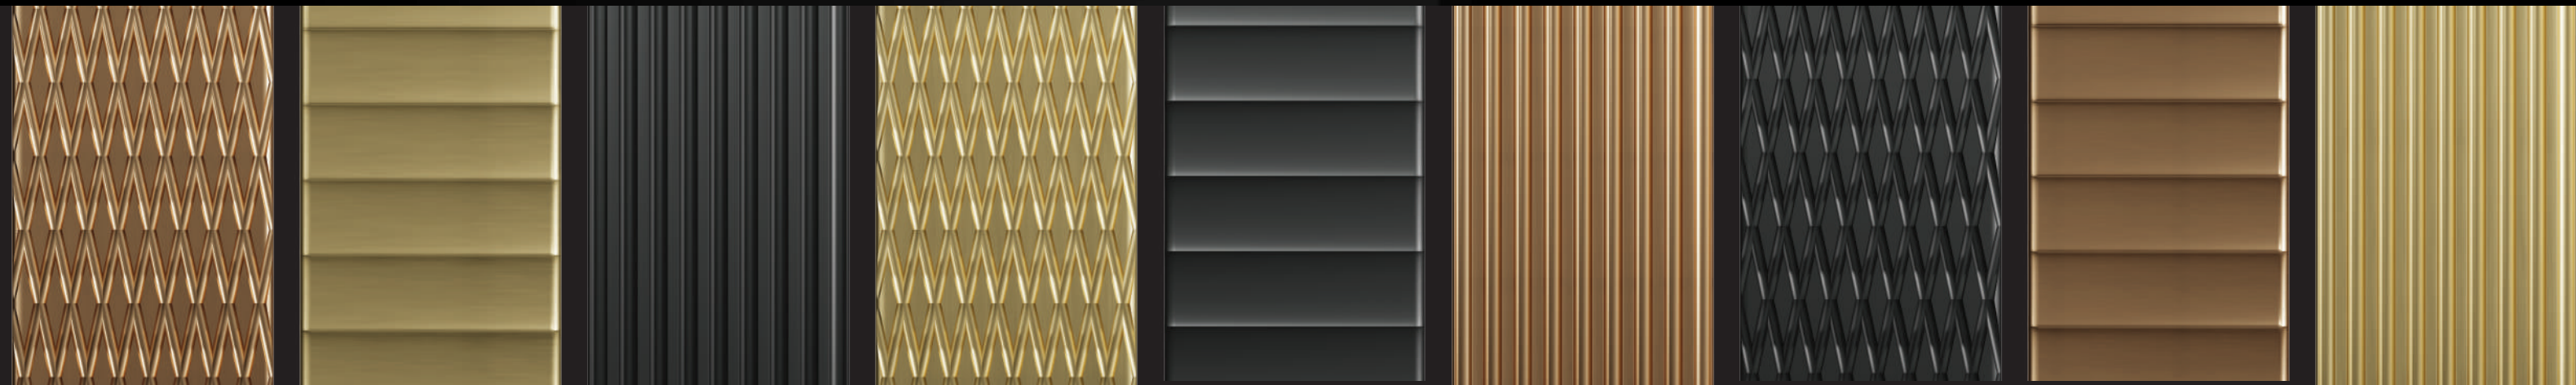

To design a collection of digital pull handles for the maindoor of homes, seamlessly integrating smart access features, ergonomics, and luxury detailing into statement pieces that elevate the entrance experience.

***Tactility +
Refinement +
Monumentality***

Imagine a collection that merges the monumental shapes of architecture, classical refinement and the intimacy of human touch into tactile forms. This is CMF reimaged - where every surface transforms interaction into quiet luxury and pure experience.

the textures

We explored a range of textures inspired by the richness of Indian textiles and the elegance of European design movements to shape our handle form. From these experiments, three textures were selected - each balancing cultural fusion, aesthetic value, and manufacturability via CNC machining.

Prism

Linear

Flow

Innovation

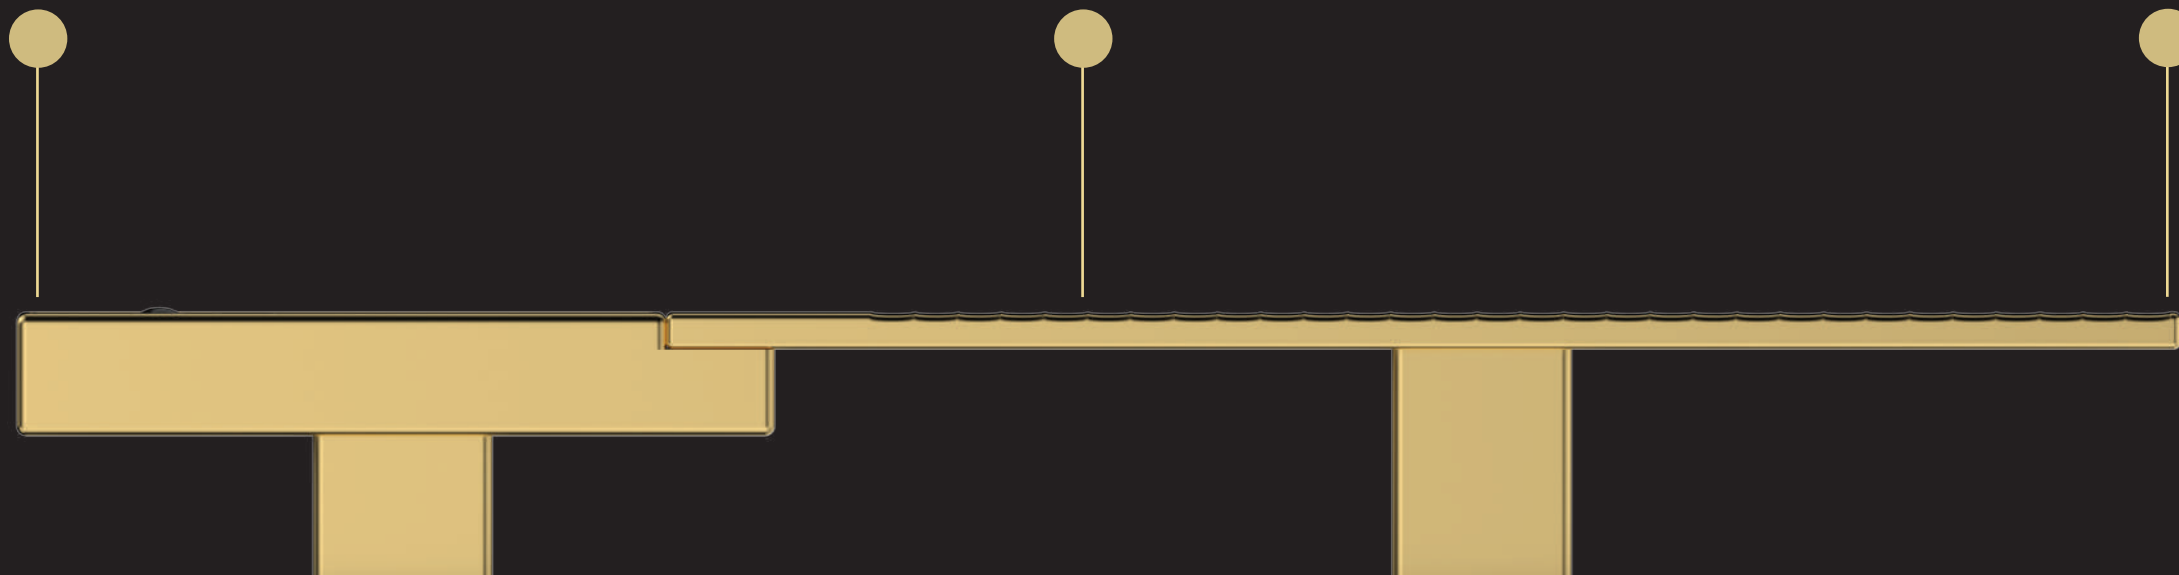

A manual pull handle reimagined with smart digital features, offering users the comfort of familiarity with the ease of technology.

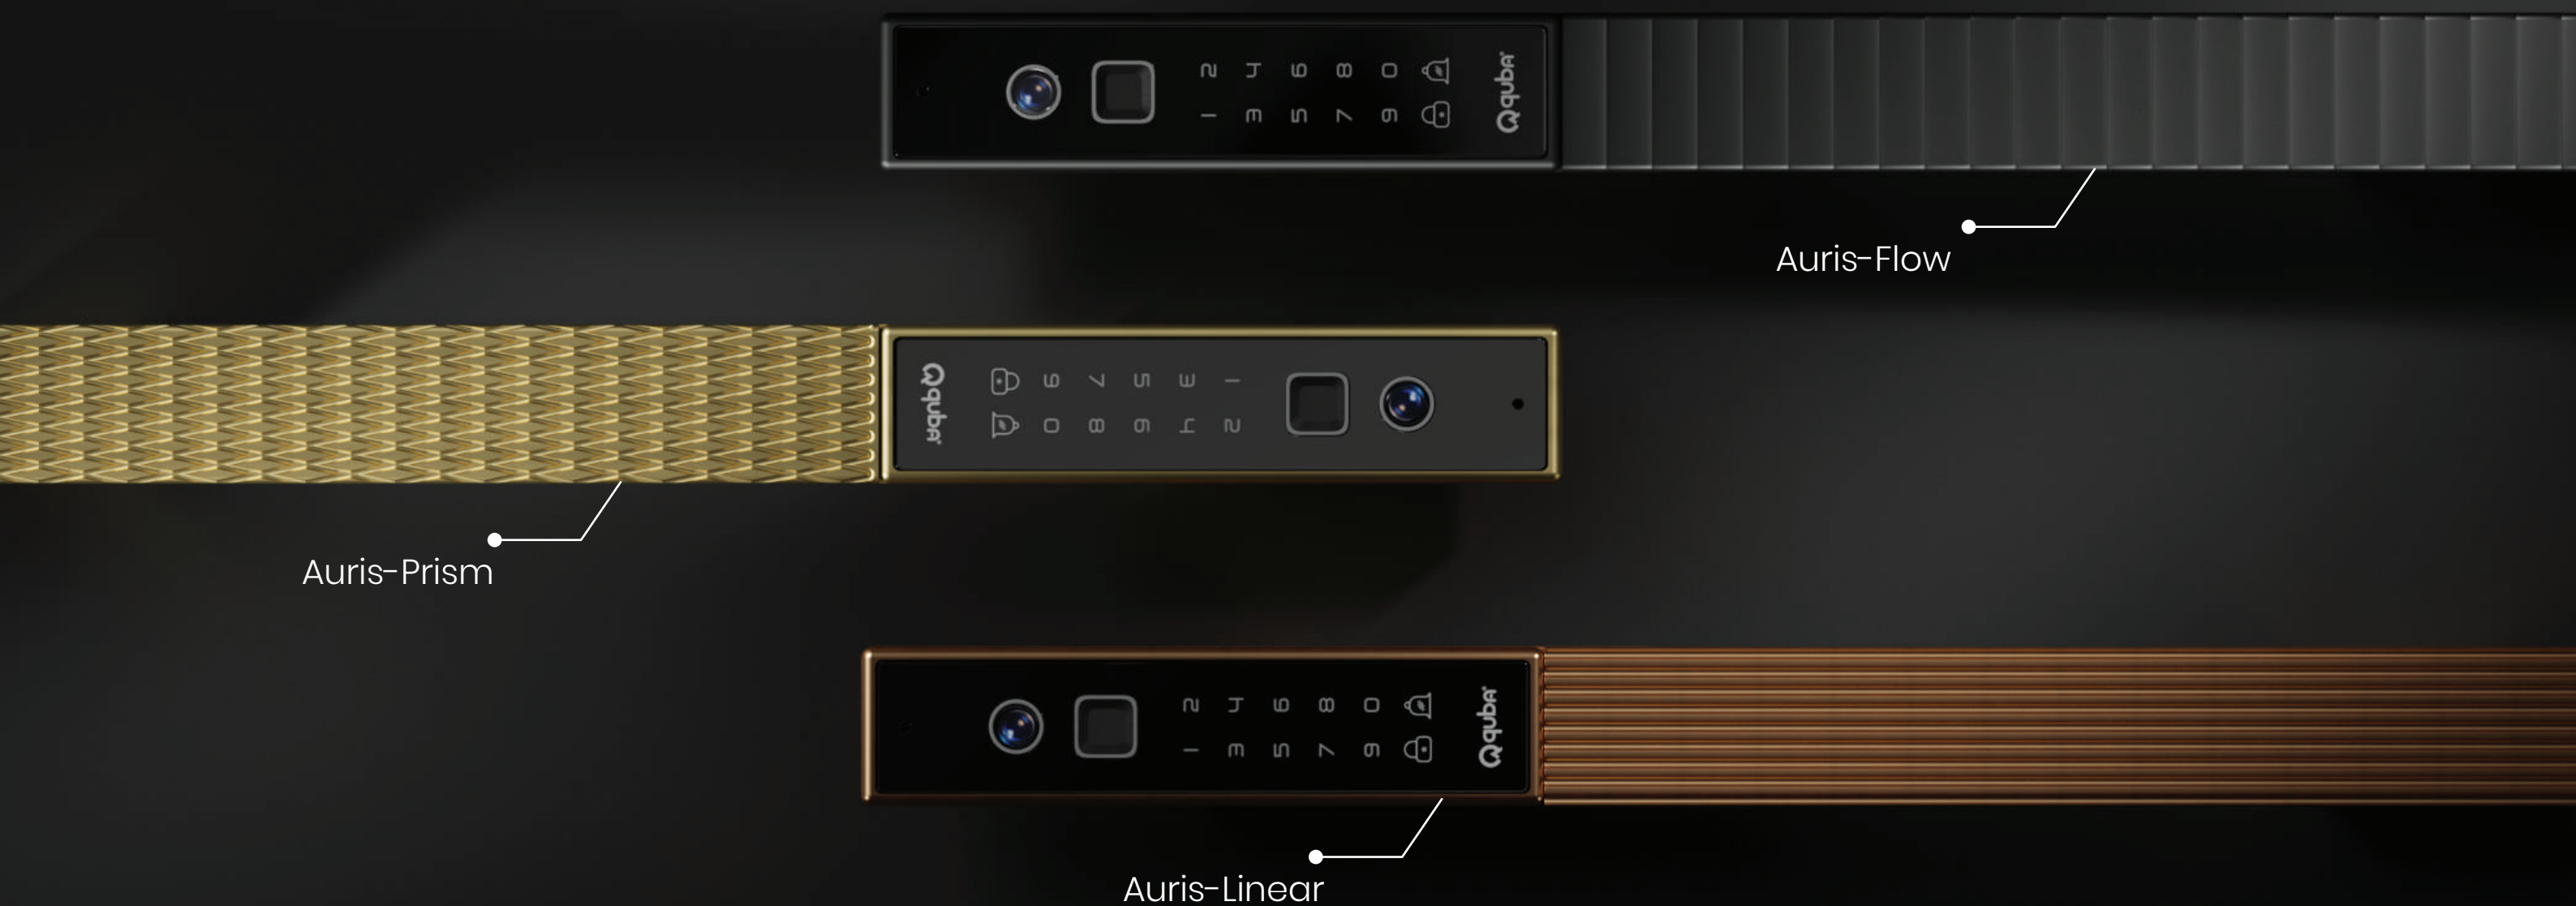

Craftmanship

Engineered for effortless access, sculpted for aesthetic perfection.

Impact

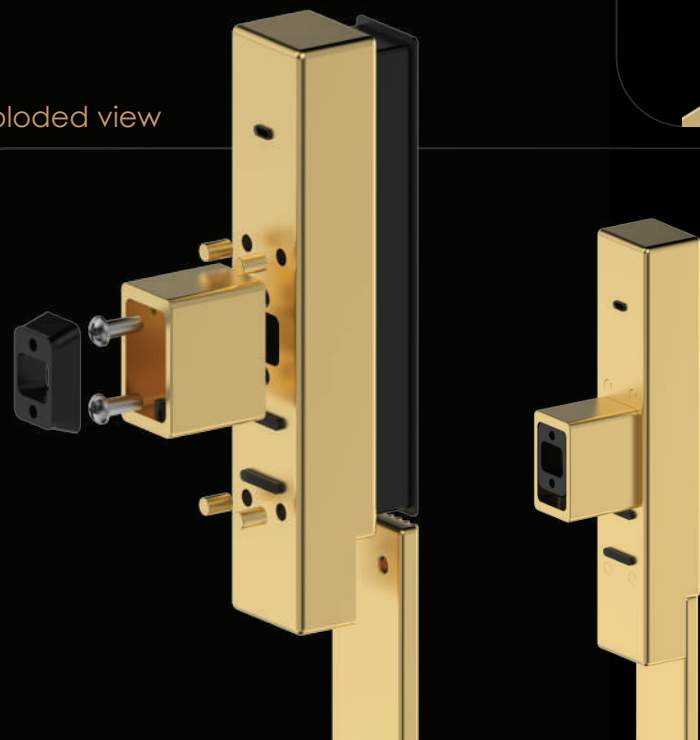

Enhances everyday interaction by blending tactile reliability with modern convenience, creating seamless user experience.
